K2tog: Insert the right needle from front to back (knitwise) into the next two stitches on the left needle. Wrap the yarn around the right needle (as when knitting) and pull it through.

M1: Insert the left needle from back to front into the horizontal strand between the last stitch worked and the next stitch on the left needle. Knit this strand through the back loop to twist the stitch.

Note: There are increases and decreases on the right side of the work (every other row)
The stitch count remains the same throughout the work.
