Difficulty Level

Experienced

Size

One size

Finished Measurements

Width: approx 12 in
Length: approx 40 in

Pattern information

The scarf is knit by alternating 2 rows of the dark color and then 2 rows of the light color.

You will start by increasing on one side until you reach the halfway point of the scarf where you will begin decreasing on the same side. To finish, you will add an icord edge around the scarf.

Pattern

CO 3 sts with the dark color and knit 1 row.
Change to the light color and knit 2 rows evenly.

From here on, continue stripping every 2 rows and increasing at the end of the first row:

Row 1: *k across, with the dark color, until there is 1 st remaining, k f&b in the last st = 1 st increased = 4 sts total.

Row 2: k across all sts with the dark color.

Row 3: k across all sts with the light color.

Row 4: k across all sts with the light color.

Repeat these 4 rows.

Continue increasing every 4th row until you have used 20g of each color. The last 10g are needed for the i-cord edge.

Knit 2 extra rows of 1 color without increases to mark the center of the scarf.

From here on, begin decreasing on the same side of the increases in the previous section:

Row 1: * k across, with the dark color, until there are 2 sts remaining, k2tog= 1 st decreased

Row 2: k across all sts with the dark color.

Row 3: k across all sts with the light color.

Row 4: k across all sts with the light color.

Repeat these 4 rows.

Decrease until there are 3 sts remaining. Knit 2 rows evenly. Bind off.

Icord-edge

Slanting Side

With circular needle, pick up sts from the right side with the light color along the 2 slanted sides. Cut the yarn, move the sts to the other end of the circular needle and work from the right side.

CO 3 sts.

k 2, ssk (1 st from the right needle and 1 from the left needle), place 3 sts on the left needle; repeat from * to * until all sts on the needle are worked. Place the remaining 3 sts aside.

Note: tighten the yarn slightly before working the 1st st.

Even side

With circular needle, pick up sts from the right side with the darker color along the even side. Cut the yarn, move the sts to the other end of the circular needle and work from the right side. Place the 3 sts in light color from the previous section onto the left needle.

k 2, k2tog, move 3 sts back to the left needle; repeat from * to * until all sts on the needle are worked. Sew the icord together at the corner to finish.

Finish

Iron the scarf and edge to keep it from curling.

Enjoy! 😊
