Gauge

11 sts = 10 cm (dc but worked in V st)

8 rows = 10 cm

Abbreviations used in this pattern

Ch = chain

Dc = double crochet

St(s) = Stitch (es)

V st = V stitch

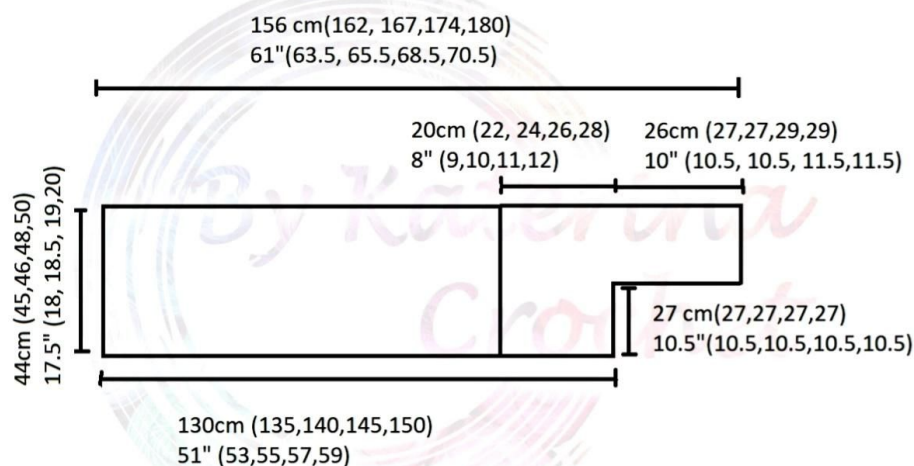

About the Design

This Wrap Me On Jacket is a chic crochet garment, perfect to wear at the office or on a walk to complete your outfit in a unique way. The design is very simple and you don't have to be an experienced crocheter to make it. It's basically a bigger scarf with a sleeve at the end. It's worked from the bottom to the top, starting with the back side. After a few rounds we will extend the length with some chain stitches to make the sleeve. Then we will continue to work the new number of stitches until we finish the back side.

After finishing the back side we will continue to work the front side with the sleeve and then after finishing the sleeve, we will continue to work the front panel. At the end we will sew the inner part of the sleeve and the side of the jacket and be done.

This Pattern is available for sizes from S-2XL and is written in US terms. The final measurements for each size are in the diagram below.

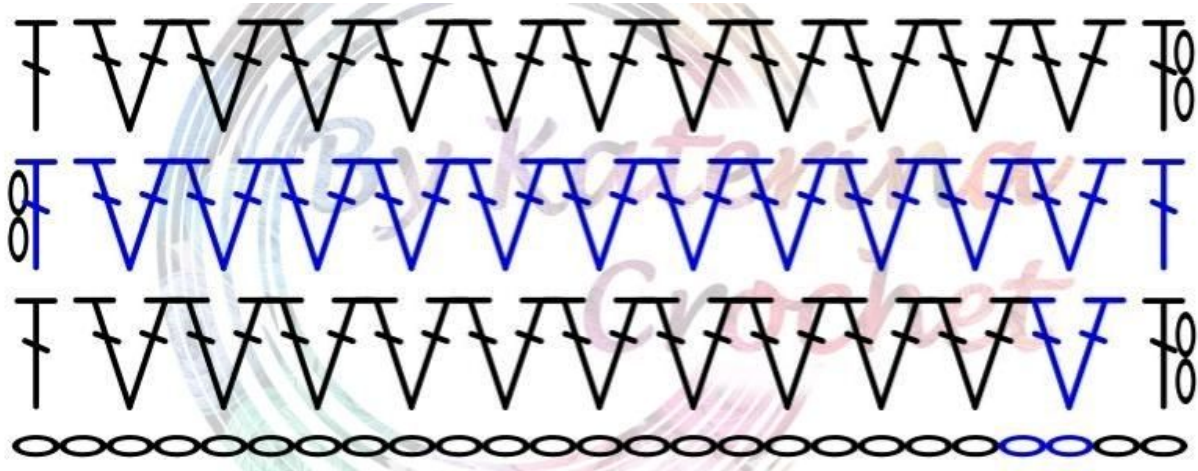

**On the first line you have the values in cm and on the second one in inches.*

About the stitch used in this pattern

For this design I used a simple V stitch and it turn out just great. The V stitch is easy to make: Instead of making 1 dc after another, you will make 2 dc in the same stitch and skip 1 st.

Bellow you will find a stitch chart:

**If you want to modify the length of the Wrap Me On Jacket, just take into consideration that this pattern requires a multiple of 2 plus 1 sts.*

Now that we have all the details in place, let's start to make the Wrap Me On Jacket!

Back panel

First the foundation chain:

S = ch 143 sts

M = ch 149 sts

L = ch 155 sts

XL = ch 161 sts

XXL = ch 165 sts

Row 1

Ch 2, 1 dc in the 3rd st (ch 2 at the beginning of each row doesn't count as a st), skip 1 st, [2 dc in the next one (V st) , skip 1]. Repeat the section between [] to the end of the row, ending the row with skip 1 and 1 dc in the last st. Ch 2 and turn.

Row 2

1 dc in the 1st, 1 V st (2 dc) between the 2 dc that makes the V st of the previous round. Repeat and make 1 V st to the end of the row, ending the row with 1 dc in the last st. Ch 2 and turn.

Row 3 - 22

Repeat row 2.

** It's the same number of rows for each size and represents the high of the jacket to the armpit. If you want it to be longer, on this section you should add a few more rows.*

Row 23

At the end of row 22, we will have to extend the length of our work to make the sleeve and we will make a chain of:

S = 29 sts

M = 31 sts

L = 31 sts

XL = 33 sts

XXL = 33 sts

Ch 2, 1 dc in the 3rd st, skip 1, 1 v st in the next st. Repeat this section until you get at the end of the extra chain, then start making the V stitch as you worked the others rows.

Now we will continue to work the rows with the sleeve until we will get to the desired high of the sleeve and finish the back panel:

S = 14 rows

M = 15 rows

L = 16 rows

XL = 18 rows

XXL = 20 rows

Front Panel

The front panel is worked continuing the back side, but this time we will work the sts for the front side of the sleeve and the sts for the front panel. You will have in total counting from the end of the sleeve and put the st marker in the last counted st:

S = 51 sts

M = 55 sts

L = 59 sts

XL = 61 sts

XXL = 63 sts

Continue working the V st only in the sts that you marked until you finish the front side of the sleeve, meaning that you will have the same number of rows as you made after extended the back panel:

S = 14 rows

M = 15 rows

L = 16 rows

XL = 18 rows

XXL = 20 rows

After finishing the front side of the sleeve, is time to continue working only the front panel of the jacket.

Now depending where your previous row ends, you may have to start the next round by slip sts of the sleeve and continue with the V st for the remaining sts, or start the row as usual and end the row in the st before the sleeve starts.

Repeat this row until you have in total the same number of rows that you have on the back panel before the sleeve extension. If you didn't choose to have a higher Wrap Me On Jacket, then you have to work 22 rows.

And the construction of our Wrap me on Jacket is done. We will only have to sew the inner side of the sleeve and the side of the jacket and then it's ready to wrap you!
