## Kawaii Panda Blanket

No. 1011-192-8760

**Difficulty Level:** Experienced

**Crochet Hook:** G- 4.0 mm

**Yarn:** Amigo 100% HB acrylic

White (#1) - 17 skeins

Black (#12) - 4 skeins

Neon pink (#55) - 1 skein

**Blanket size:** 78" x 51" / 200 x 130 cm

**Abbreviations in this pattern:**

**RS** = Right side (front)

**WS** = Wrong side (back)

**sl st** = slip stitch

**sc** = single crochet

**dc** = double crochet

**st** = stitch

The blanket is crocheted with the "corner to corner" method "C2C". The pattern is made up of a diagram and written instructions for each row so you can keep track of how many blocks (pixels) you should have of each color. The arrows in the pattern show which direction the row should be worked. Begin in the lower right corner.

A good tip is to weave in the ends as you work so that you don't have a million ends to weave in at the end.

If you think it is difficult to keep track of so many skeins, you can try wrapping some of the yarn onto a clothespin, so you can easily attach the colors you are not currently using and have them held by the clothespin so they don't get tangled up in the other colors.

## Corner to corner

### Row 1

1. Start with a Ch 5

2. In the 3rd ch from the hook, work 1 dc.

3. Work dc in the next 2 ch sts.  
You have now made 1 pixel.

## Row 2

1. Ch 5

2. Work 1 dc in the 3rd ch from the hook

3. Work dc in the next 2 ch sts.  
You have now made 1 pixel.

4. Now this pixel needs to be joined to the first pixel. You do this by turning the pixel and working a sl st in the left side of the first pixel. The picture shows the 2 joined pixels.

5. Ch 2 (counts as the first dc)

6. Work 3 dc in the ch gap that you have just worked a sl st into. You now have 2 pixels on Row 2.

### Row 3

1. Ch 5

2. Work dc in the 3rd ch from the hook and dc in the next 2 ch sts

3. Sl in the pixel below.

4. Ch 2 and work 3 dc in the ch gap that you have just worked the sl st into.

5. Work 1 st in the neighboring pixel. Ch 2. Work 3 dc in the ch gap that you just worked a sl st into. You now have 3 pixels and row 3 is done.

## Decreasing for the corner

1. Instead of working ch 5 at the end of the row, work 3 sl sts along the side of the last pixel.

2. Continue working the pixels as before to the end of the row.

3. Here you can see how to make the decreases when you need to do so at the end of a row. Join 2 pixels together with a sl st.
