White (#1): 1 skein Black (#12): 2 skeins Light Pink (#57): 1 skein Neon pink (#55): 2 skeins Primrose (#35): 2 skeins Neon Green (#33): 2 skeins Light Turquoise (#21): 2 skeins Neon Coral (#44): 2 skeins Lavender (#59): 2 skeins

#### Abbreviations in this pattern:

**RS** = Right side (front)

WS = Wrong side (back)

sl st = slip stitch

**sc** = single crochet

hdc = half double crochet

**dc** = double crochet

st = stitch

The blanket is crocheted with the "corner to corner" method "C2C". The pattern is made up of a diagram and written instructions for each row so you can keep track of how many blocks (pixels) you should have of each color. The arrows in the pattern show which direction the row should be worked. Begin in the lower right corner.

A good tip is to weave in the ends as you crochet so you don't have a million ends to weave in at the end.

If you think it is difficult to keep track of so many skeins, you can try wrapping some of the yarn onto a clothespin, so you can easily attach the colors your are not currently using and have them held by the clothespin so they don't get tangled up in the other colors.

# Diagram

#### **Corner to corner**

#### Row 1

1. Start with a Ch 5

2. In the 3rd ch from the hook, work 1 dc.

3. Work dc in the next 2 ch sts. You have now made 1 pixel.

#### Row 2

1. Ch 5

3. Work dc in the next 2 ch sts. You have now made 1 pixel.

2. Work 1 dc in the 3rd ch from the hook

4. Now this pixel needs to be joined to the first pixel. You do this by turning the pixel and working a sl st in the left side of the first pixel. The picture shows the 2 joined pixels.

5. Ch 2 (counts as the first dc)

6. Work 3 dc in the ch gap that you have just worked a sl st into. You now have 2 pixels on Row 2.

#### Row 3

1. Ch 5

2. Work dc in the 3rd ch from the hook and dc in the next 2 ch sts

3. SI in the pixel below.

4. Ch 2 and work 3 dc in the ch gap that you have just worked the sl st into.

5. Work 1 st in the neighboring pixel. Ch 2. Work 3 dc in the ch gap that you just worked a sl st into. You now have 3 pixels and row 3 is done.

### Decreasing for the corner

1. Instead of working ch 5 at the end of the row, work 3 sl sts along the side of the last pixel.

2. Continue working the pixels as before to the end of the row.

Here you can see how to make the decreases when you need to do so at the end of a row. Join 2 pixels together with a sl st.

## Edge

### Rnd 1

1. You can start anywhere on the blanket.

2. Ch 3.

5. Work 1 sl st between the next 2 pixels.

6. When you come to the corner, work 1 sl st in the corner

7. Ch 2.

8. Work 1 more sl st in the corner.

9. Ch 3.

10. Continue working around the blanket in this manner

11. End with a sl st at the beginning of the rnd.

#### Rnd 2

1. Ch 1. All sts in this rnd are worked in the ch space from the previous rnd.

2. Work 3 sc in each ch-space.

3. Repeat 3 sc in each ch-space to the corner.

4. In the ch-space with 2 ch sts, work 3 sc  $\,$ 

5. Continue with 3 sc in each ch-space to the end of the rnd.

6. End with a sl st.

#### Rnd 3

1. Now you will work 3 hdc in the next sc. All 3 hdc in the same st.

2. Skip 1 st and work 1 sl st in the space from the previous rnd.

3. Work 3 hdc in the next st.

4. Skip 1 st and work 1 sl st in the space from the previous rnd.

5. Continue in this manner:\*3hdc in the same st, skip 1 st, sl st\*

6. When you get to the corner, work \*3hdc in the same st, skip 1 st, sl st\*

7. Continue working around the corner with \*3 hdc in the same st, skip 1 st, sl st \*

8. Continue to the end of the rnd.

9. End with a sl st.
