Shape the head and eye sockets by drawing a thread from the head's opening (where it will be sewn on the body) to the placement of one of the eyes, lead the thread around a stitch, and back again. Tighten the thread to form an eye socket and fasten the threads by tying a knot. Repeat for the other eye.

Attach the safety eyes.

TAIL (GREY/OFF-WHITE)

Cut about 25 cm of the wire. Wrap yarn around the whole wire, except about 2 cm in one end.

Make a small inflection which serves as a "counter hook" in the mouse body.

Poke a hole in the body with a knitting needle, fill the hole with glue, and stuff the tale with the inflection into the body.

You may sew a few stitches to close the hole and further fasten the tail.

Good to know

Needle Size + Tension

Knitters knit very differently: some knit with a needle size 2,0 mm and obtain the same size of design quality as a person who knits with a needle size 4,0 mm. We owe this knowledge to the team of knitters who join us.

The key to knit a specific size is a lot about the knitting style/hands/skills, rather than the size of needles.

Therefore, we will recommend a range of needle sizes.
