ASSEMBLING

You need three dinosaurs for the pram chain.

Take a long needle and blue yarn. Pull the needle through four silicone beads. Take one of the dinosaurs and pull the needle through the head.

Pull the needle through three silicone beads, then take the second dinosaur and pull the needle through the head.

Pull the needle through three silicone beads, then take the last dinosaur and pull the needle through the head.

Pull the needle through four silicone beads.

Now you have all the beads and dinosaurs on the thread.
Take one of the wooden clips and secure the thread to it (see pictures below)
To make the pram chain extra sustainable you are going to go through all the beads and dinosaurs one more time with the thread.
Make sure you have enough off the thread so it goes all the way back to the beginning.
Take your second wooden clip and secure it.
Make sure to tighten the thread so it doesn't leave any gaps between the beads and dinosaurs.
When you think it looks good, fasten the threads!

And you're done! 😊

Have fun!
