ABOUT THE PATTERN
The edge of the neck is worked so that the furrows are placed end to end.
3 knit stitches are worked on all rows for the edge. Increases are worked after and before the edges as well as on each side of the middle stitch on every other row. The increases are worked by means of a yarn over on the wrong side and they are knit and knit through back loop, respectively, on the right side. This results in a middle stitch that runs throughout the work.
Different pattern repeats are worked.
