## Vintage Hank

- a wonderful  
wool yarn with bamboo

The bamboo adds softness and lightness to the yarn, and the wool contributes with its well-known excellent durability.

Wool is a sturdy material that requires very little washing and lasts for a very long time. It is one of the reasons why some consider wool to be among the most sustainable materials.

Vintage is perfect for crocheting and knitting small animals that you want to give a "woolen" look. It is also suitable for a nice sweater.

70% Wool, 30% Bamboo,

*The poncho is knitted in a front and a back part, neck, and a rib pattern on the sides. It is finished by sewing the buttons on through both front and back parts (without buttonholes). Firmly mounted buttons help to keep a nice shape of the poncho. This pattern starts from the back part. Each cable of the pattern consists of 18 sts. When front and back pieces are knitted, join seams on the shoulders. The rib pattern (k4 p4 rib) is made by picking up the stitches along each side of the work (for 13 cm). The polo neck is knitted around the neckline in k4 p4 rib. It is 26 cm long but can be easily made shorter or longer as needed.*

### BACK & FRONT

# Good to know

## Needle Size + Tension

Knitters knit very differently: some knit with a needle size 2,0 mm and obtain the same size of design quality as a person who knits with a needle size 4,0 mm. We owe this knowledge to the team of knitters who join us.

The key to knit a specific size is a lot about the knitting style/hands/skills, rather than the size of needles.

Therefore, we will recommend a range of needle sizes.
