

CROCHET PATTERN

Fisherman's Hammock

Storage

Design: OneStopWonders | Hobbii Design

MATERIALS

Rainbow Cotton 8/8

Col. 1: 3 skeins of Beige (04)

Col. 2: 1 skein of Light Brown (06)

Crochet hook 3.5 mm (US E-4)

Tapestry needle

Scissors

Stitch markers

YARN QUALITY

 **Rainbow Cotton 8/8**, Hobbii

100 % Cotton

50 g (1.8 oz) = 75 m (82 yds)

GAUGE

In pattern = 5 cm x 5 cm (2" x 2") = 2 arches
x 2 rows

This make has a lot of stretch to it. Gauge is measured unblocked and at its peak stretch laying flat.

ABBREVIATIONS

ch-# = chain the number stated

sl st = slip stitch

sc = single crochet

hdc2tog = half double crochet two together

hdc3tog = half double crochet three
together

ch-sp = chain space

ch-# sp = chain-number space

Rep = repeat

st(s) stitch(es)

arch = refers to the arch created by the
chain space.

rs = right side

ws = wrong side

sk-# = skip the number stated

SIZE

One size

MEASUREMENTS

Finished:

11" Width x 22" Length (28 cm x 56 cm)

This hammock will stretch with use.

PATTERN INFORMATION

This fun and easy design is customisable to fit a smaller or larger hammock. It's worked using the mesh stitch and forms a beautiful breezley lace look. If you plan to make a larger size, you will need more yarn!

Please make sure to include the pattern's name and number.

Happy Crafting!

Pattern

INFO AND TIPS

Foundation: 80 + 6 for turning chain. Turning chain counts as the first arch.

Customise: Multiples of 4 + 6 for turning the chain. Ex. 20 + 6 = 26 for foundation.

- CH-6 at the beginning counts as the first arch.

BODY

CH-86.

Row 1: In the 10th ST from hook, SC. *(CH-5, SK-3, SC in next). REP from *() to the end. TURN. (20 Arches)

Row 2: CH-6. Into the first CH SP, SC. *(CH-5, in next CH-SP, SC). REP from *() across all CH-SPs. CH-2, DC into the 5th CH of the chain CH-9 below. TURN. (21 Arches)

Photo shows the end of Row 2. Work was turned.

Row 3: CH-6. SK CH-2 SP, SC in CH-5 SP. *(CH-5, in next CH-SP, SC). REP from *() ending the last arch in the top of the CH-3 from the CH-6 below. TURN. (20 Arches)

Photo shows the end of Row 3.

Continue below

Row 4: CH-6. into the first CH SP, SC. *(CH-5, in next CH-SP, SC). REP from *() across all CH-SPs. CH-2, DC into the 2nd CH of the chain CH-6 below. (21 Arches)

Photos show the end of Row 4.

Repeat Row 3 & 4 until you have 27 rows. To adjust size, repeat or reduce these rows ending with Row 3.

To help keep track of your rows, every odd row is Row 3, every even is Row 4.

Do not fasten off.

Move on to the first loop below.

First Loop

Tips:

- First CH-1 of each row and any SL STs do not count as a ST.
- To start the first HDC3TOG, make sure to include the first CH-5 SP in your HDC3TOG that you SC'd into. Shown in Row 1's photo below.
- The last SC from ROW 3 in the body portion will count as a ST for the loops. This only impacts ROW 2 for the loops.

- If you customized your hammock, you may end up with an odd number of CH-SPs. For rows 2-3, HDC in the last ST(s) in place of final HDC(2/3)TOG if missing a CH-SP.

Row 1 (RS): You'll be working down your side seams. Turn your work 90 degrees. You'll be working around each arch. CH-1, SC in first CH-5 SP *(HDC3TOG, CH-1). REP from *() across. SC in last. TURN. (20 STS)

Photo shows the beginning of Row 1.

Row 2 (WS): CH-1. HDC2TOG across. TURN. (10 STS)

Row 3 (RS): CH-1. HDC2TOG across. TURN. (5 STS)

Continue below.

Row 4 (WS): CH-8, SL ST to last ST of the 5 across. TURN. (8 STS)

Photos show the end of Rows 4 & 5.

Row 5 (RS): 12 SC around the CH-8 loop. This helps prevent stretching. SL ST to the HD2TOG below. (12 STS)

Fasten off. Move on to the second loop below.

Second Loop

Tips:

- First CH-1 of each row and any SL STs do not count as a ST.
- To start the first HDC3TOG, make sure to include the first CH-5 SP in your HDC3TOG that you SC'd into.
- The final SC from ROW 3 in the body portion will count as a ST. This impacts ROW 2 for the loops below.
- Make sure you have the right side up. The first loop will have the right side of the SC showing. You'll be working from right to left like the first loop.

Row 1 (RS): With a slip knot on your hook, SL ST into the first arch's CH-SP. CH-1. You'll be working down your side seams again. SC in first CH-5 SP. *(HDC3TOG, CH-1). REP from *() across. SC in the last CH-5 SP. TURN. (20 STS)

Row 2 (WS): CH-1. HDC2TOG across. TURN. (10 STS)

Row 3 (RS): CH-1. HDC2TOG across. TURN. (5 STS)

Row 4 (WS): CH-8, SL ST to last ST of the 5 across. TURN. (8 STS)

Row 5 (RS): 12 SC around the CH-8 loop. This helps prevent stretching. SL ST to the HD2TOG below. (12 STS)

Fasten off and sew in your loose ends.

Move on to the tassels below.

Tassels

Tip: To make smaller tassels, decrease the wrap around. Larger the tassel, the more weight it has. If you made a smaller hammock, decrease tassel size.

Start with color 1 or 2. There will be six tassels total. Three of each for color 1 & 2.

Step 1: Using your hand or a flat object, place your tail end at the bottom. Hold that strand in place and wrap around 50 times. Cut a tail at the back, but make sure it's just as long as the wrapped strands.

Step 2: Cut an 8" (20 cm) piece of yarn. *This will be the top of the tassel you'll use to knot to your hammock.* Thread your tapestry needle and put it under all 50 layers. Leave a tail on the opposite side. Pull this strand to the top and tightly double knot it.

Step 3: Push off all your strands from the case. Cut another 8" (20 cm) tail. *Make sure that your first 8" (20 cm) tail does not fall to the bottom and you accidentally cut it in the coming steps.*

Step 4: Wrap the second 8" (20 cm) tail 1" (2.5 cm) from the top. Tightly double knot to form the ball.

Step 5: Pull your loops as straight as you can. Cut the loops in half.

Step 6: Now trim your work as needed.

Step 7: Attach your tassels by double knotting them to every 4th arch as shown in the photo. If you adjusted your total ST count, attach where desired. Repeat this process to make more.

Enjoy!
