INFO AND TIPS

- A small chain length is worked and then a leaf or flower is formed by working in several rounds. Once a leaf or flower is complete a small chain length is chained again and another leaf or flower is worked. This process is repeated to a desired length for each strand.
- The vines can be worked either by holding 2 strands of yarn together or just a single strand as the yarn comes.
- If using the yarn double the size 3.75mm hook is used. If holding the yarn single then the 2.25mm hook is used.
- The instructions for the flower and leaf will be the same whether using the larger hook or smaller. The only difference will be the number of chains made between each flower and each leaf.
- When the pattern indicates to join, join using a slip stitch.
- Parentheses () indicate a set of stitches worked into the same stitch/space.
- Brackets [] indicate a set of instructions worked for a stated number of times.
