INFO AND TIPS

This scarf is crocheted row by row along the long side.

Keep the right side of the work facing you at all times and work from right to left (except Row 1).

Start each row with a new color and securely fasten the yarn after completing the row.

Begin each row with a 2.5 mm (C-2) crochet hook to create a tight chain of 30 chains (approximately 4 inches or 10 cm long), or any number of chains needed to achieve your desired fringe length. Finish the row in the same way, with a chain of about the same length using the 2.5 mm (C-2) hook. This technique creates a fringe and eliminates the need to hide ends, though this will not be mentioned in further row instructions—just keep this in mind.

Use a 5 mm (H-8) hook for the main pattern. The first row determines the length of the scarf, so adjust it to your preference.

Work rows 1-19 once, then repeat rows 3-19 and 3-13. If desired, you can adjust the scarf's width by adding or omitting rows.

The table below is provided to guide you on the amount of yarn needed for each row. This is useful if you want to combine colors differently and are unsure if you have enough yarn. Note that changing the length of the scarf may affect the amount of yarn required.

The table also includes color information for each row to help you achieve a scarf the same color scheme as the one shown in the photo. In total, I used 40 g of Dark Mint, 50 g of Amber, 55 g of Cherry, 60 g of Petrol Green, and 65 g each of Primrose and Powder Rose.

Once the scarf is complete, ensure all ends are securely fastened (e.g., by tying small knots at the ends of the chains) and trim any excess yarn if needed. Wash, lay flat to dry.
