Making up

Safety eyes

Attach the eyes before sewing up the body.

The safety eyes are positioned at each of the stitch markers on row 24.

Carefully push the stem of each safety eye through the loop at each stitch marker- remove the marker.

Place some stuffing around each stem before pushing the plastic backing covers over the eye stems to hold the eyes in place.

Body

Use the CO yarn end to gather the CO on stitches, then mattress stitch the seam stopping 2 cm from the C&T row.

Stuff the bunny firmly, paying attention to the shaping. Finish sewing the side seam, add more stuffing to the open top of the bunny before pulling the C&T yarn to close the top. Weave in the yarn end.

Nose and mouth

Position the nose just under the eyes in the middle of the body. Use black yarn to make horizontal stitches 2 stitches wide and 2 rows high. Add a mouth shaped as an upside-down capitol T. The vertical bar is 4 rows long and the edge of each side of the mouth is 2 rows up and 2 stitches to the side of the vertical bar.

Ears

Fold each ear in half lengthways and sew the row ends together at the straight row ends. Position the ears on the top of the head as shown, sew firmly into place.

Arms

Gather CO edge. With wrong sides together mattress stitch the arm seam. Stuff the arm and pull the C&T yarn to close the top of the arm.

Position an arm either side of the body, level with the eyes. Sew securely in place.

Legs

Gather CO edge. With wrong sides together mattress stitch the leg seam. Stuff the leg and pull the C&T yarn to close the bottom of the leg.

Position the C&T end of a leg either side of the body, approx. 2cm from the middle of the base. Use the illustration to guide you for sewing the legs into place.

Tail

Make a small pom from leftover yarn and sew into place at the back of the bunny.

Enjoy!
